Objective

I'm a Information Technology student with a strong foundation in software development, I am proficient in Java and C through both academic coursework and hands-on experience. Passionate about technology and problem-solving, I am eager to contribute to real-world software projects and continuously grow as a developer in a dynamic, professional environment.

Technical Skills

- **Programming languages :** (c, java)
- **Web development :** (HTML, CSS)
- **Database management :** (MySQL)
- **Data analysis :** (Excel,SQL)
- **Certifications :**
 - AI skills challenges from Microsoft
 - Hacker rank certificate of basic java
 - Data Analytics job simulation for deloitte
 - Naukri campus young turks 1st round qualified by 95%

Projects

- **Project 1 The Noise Suppressed Image Enhancing Environment (NSIEE)**

Aim of the is to reduce image noise and enhance image clarity using traditional filters, adaptive algorithms, and deep learning models. The goal is to improve image quality for applications like medical imaging, surveillance, and digital photography while preserving important details.

- **Project 2 Hospital management System**

The aim of the Hospital Management System is to design and develop a comprehensive software solution that efficiently manages all aspects of hospital operations, including patient records, doctor schedules, appointments, medical histories, prescriptions, billing, and departmental coordination, with the goal of improving healthcare delivery, reducing administrative workload, and ensuring data security and accuracy.

Internships

- **Codsoft – Web development Internship**

Worked on creating and enhancing website layouts and features, contributing to both the design and functionality of web applications. Gained hands-on experience in web development using HTML, CSS, and JavaScript, while collaborating with the team to build responsive and user-friendly website

- **Techoctanet services pvt- Java Development internship**

Contributed to the development and enhancement of web applications using Java. Gained hands-on experience in backend development, working with core Java, object-oriented programming, and collaborating with the team to implement features, fix bugs, and improve application performance

Academic Qualifications

- Sipna college of engineering and technology Amravati
Bachelor of engineering in Information Technology
CGPA 7.32/10
- Shree samartha public school & junior college , Akola
HSC 93.6%
- Bal shivaji high school ,Akola
SSC 71%

Active participations and co-curriculars

- International research journal of modernization in engineering Technology and science

Hobbies

- Dancing
- Reading books
- Listening music
